

## Polyethylene Wax

Properties	Value	Unit	Test Method
Viscosity @ 140°C	30±10	cp	ASTM D3236
R&B softening point	105±3	c°	ASTM E28
Melting point	100±5	c°	DSC
Density	0.91±0.01	g/mL	ASTM D611
Volatile Content @ 150°C	<1	%	ASTM D6658
Form	Flake	-	-
Color	White	-	-

### Application:

- Polyolefin based Masterbatch as a dispersing agent
- Highly effective external lubricant for PVC
- External lubricant for Wood Plastic Composite (WPC)
- PVC based color and additive Masterbatch
- Asphalt as a modifier in bitumen properties

### Packaging & Storage:

- Bopp bag 25Kg
- The product has to be stored dry at room temperature
